# DASHBOARD

Power BI dashboards are a collection of visuals that compose, store, and show significant data from different information sources into one, easy-to-access place. You can share dashboards with others.

The dashboard must fit on a single page. It works like a blank canvas where you can put your visualizations.

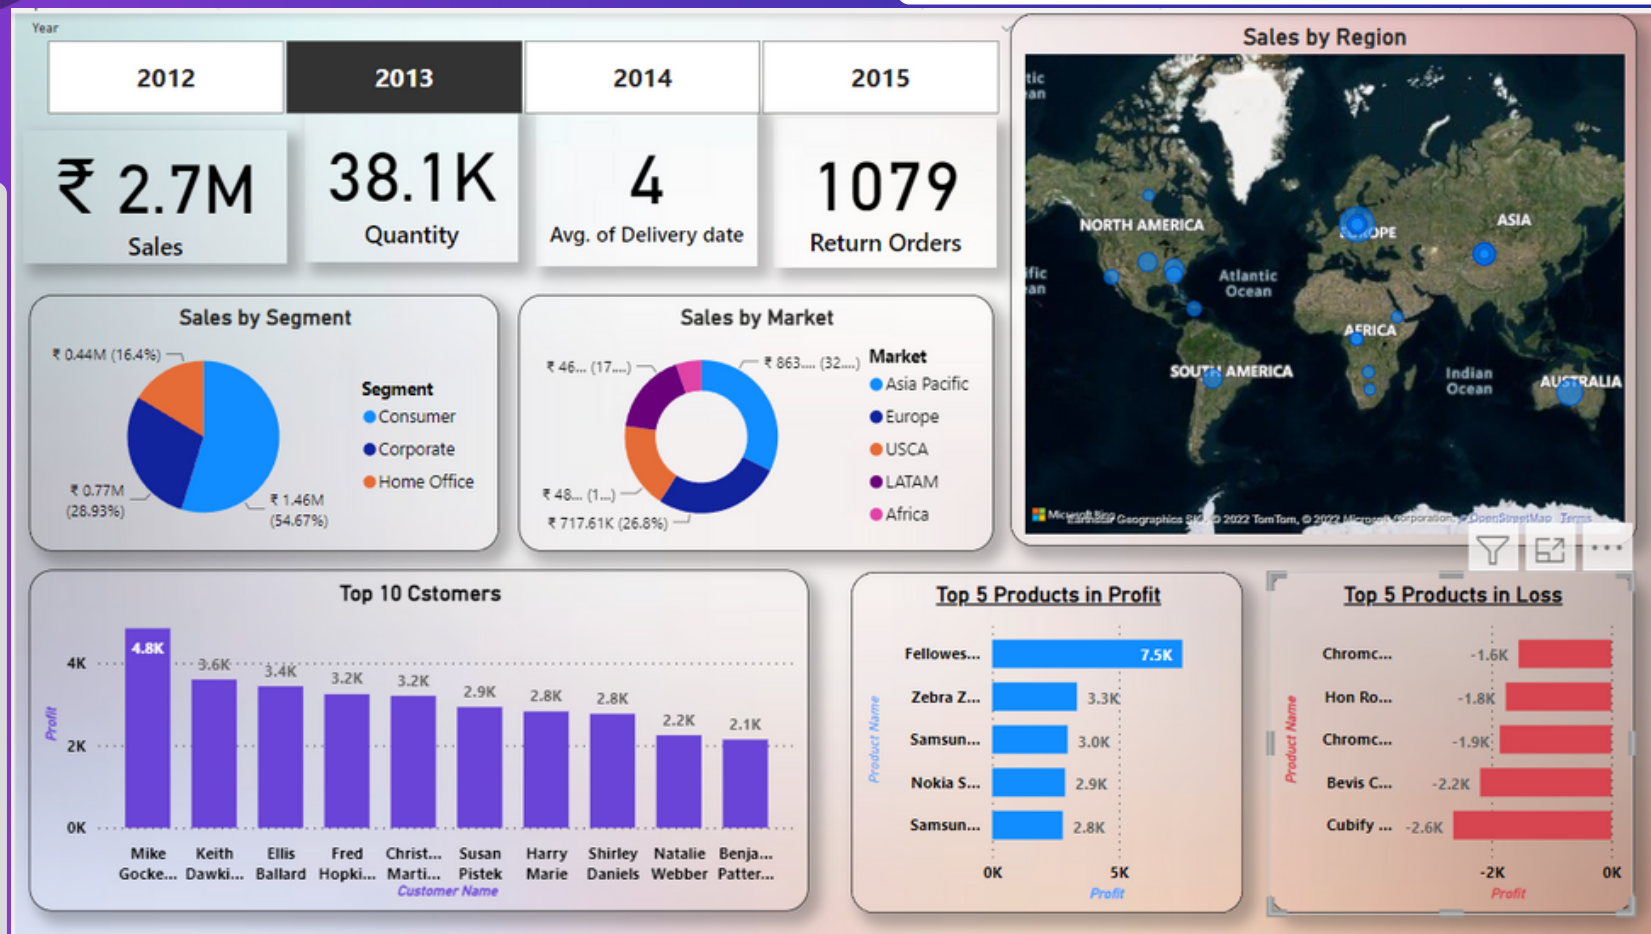

**“BI is about providing the  
right data at the right time to  
the right people so that they  
can take the right decisions”**

---

**by: Nic Smith**

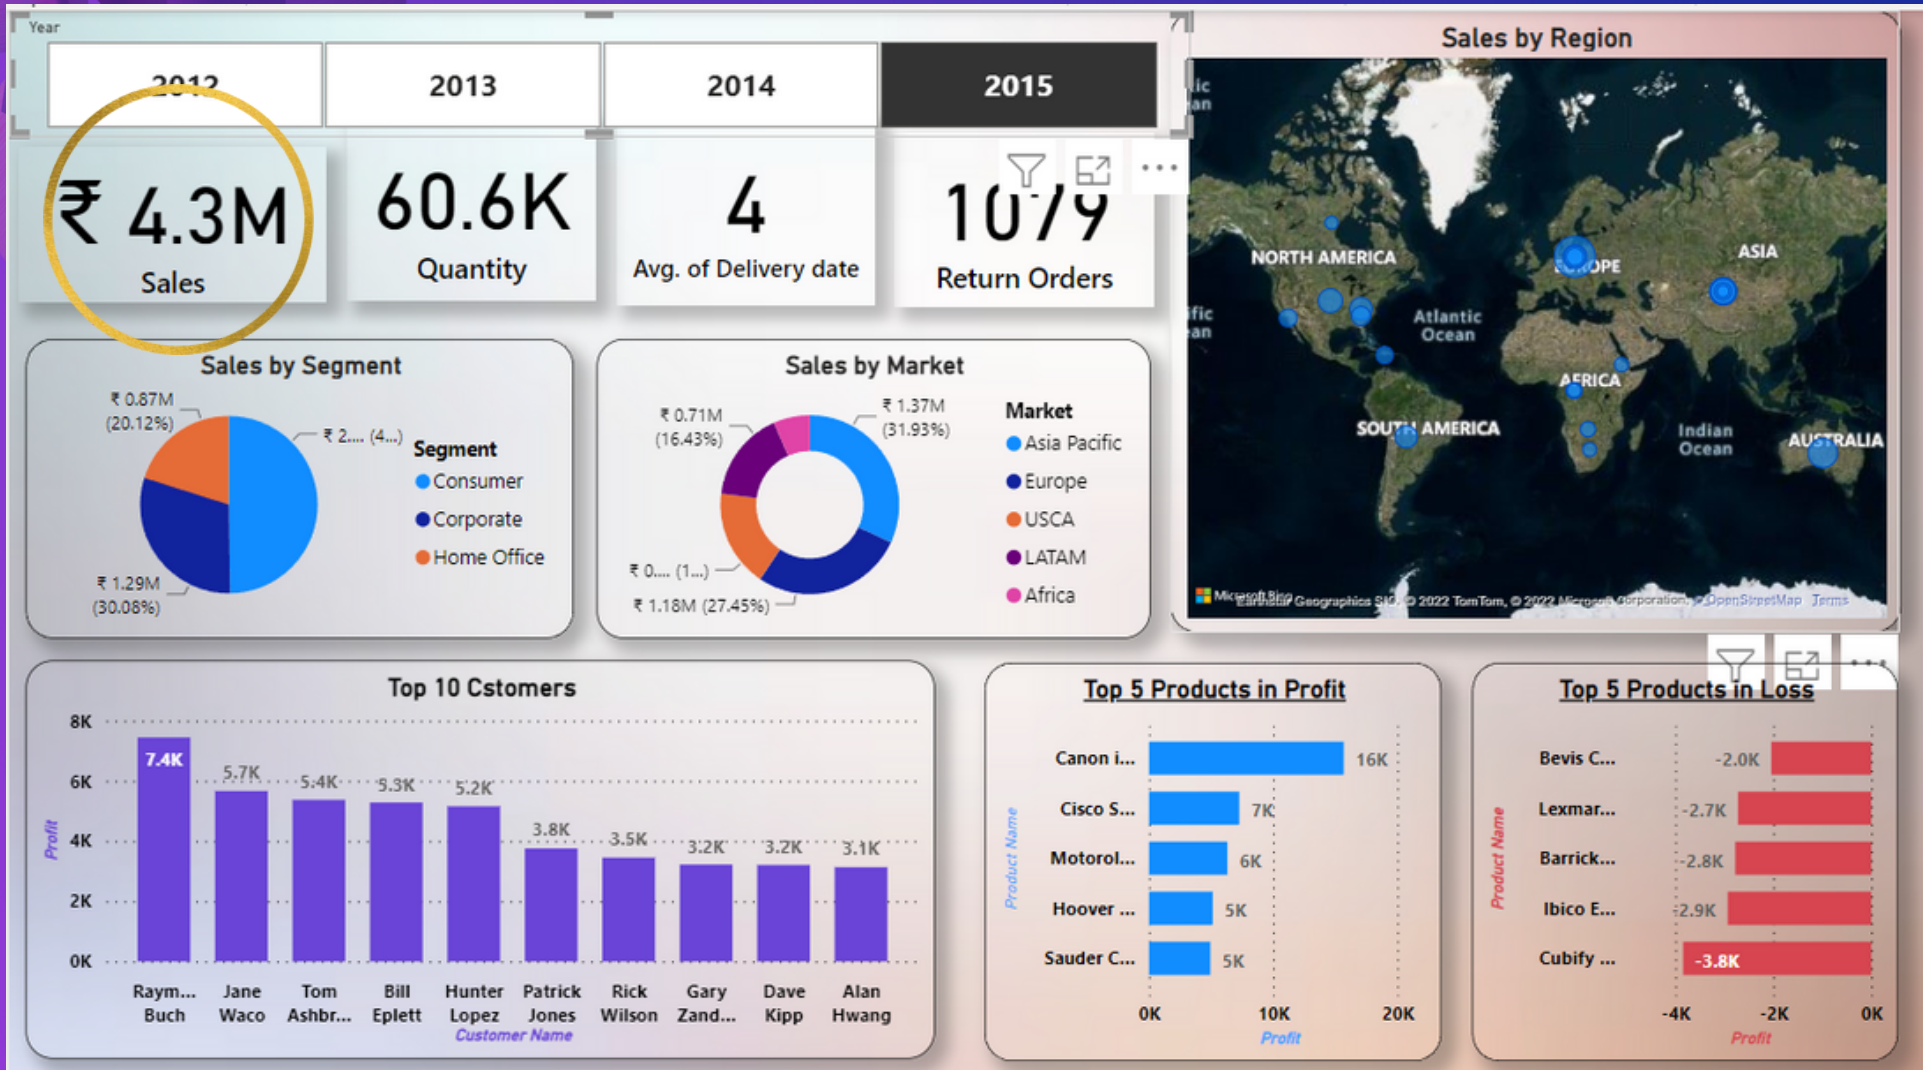

# My Dashboard

# Maximum Sales

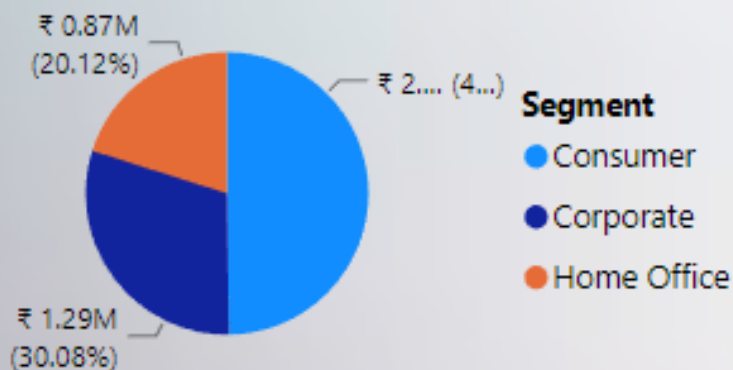

\*Year 2015

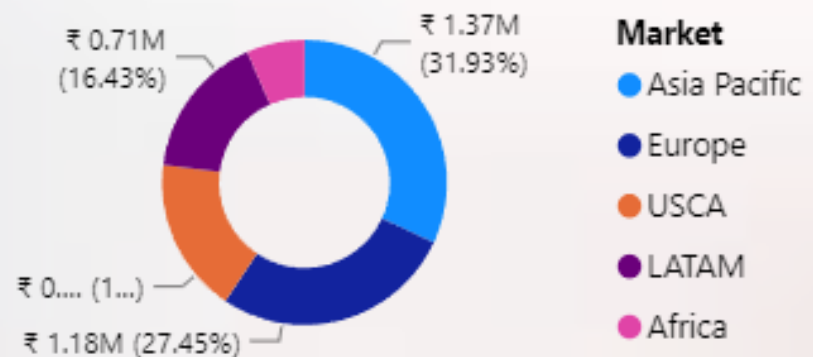

# Maximum Sales by Segment and Market

\*Year 2015

## Sales by Segment

## Sales by Market

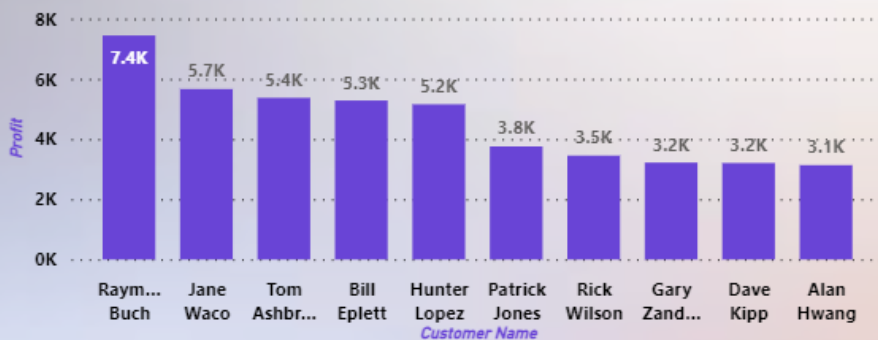

# Top Selling Products and Customers

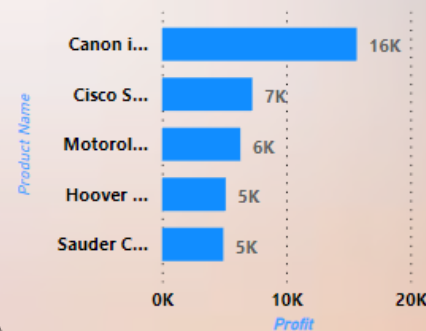

\*Year 2012

- Top Selling Product : Ibiko EPK-21
- Top Customer : Sanjit Singh

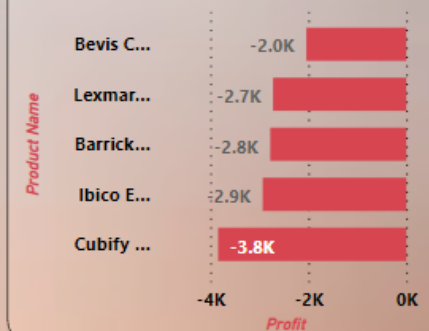

Top 10 Cstomers

Top 5 Products in Profit

Top 5 Products in Loss
